Buzun "Art" Chen

Software Engineer

608-886-2354   buzun@tixora.com   515 University Avenue Apt #408, Madison, WI 53703

Education

University of Wisconsin-Madison, 2012-2016
B.S. in Computer Science and Computer Engineering, Cumulative GPA: 3.65/4.00

COURSE WORK

Data structure, machine organization, digital system fundamentals, programming languages and compilers, artificial intelligence, computer network, algorithms, operating systems.

Experience

CO-FOUNDER, TIXORA.COM, MADISON, WI – 2015-PRESENT

Tixora.com is a bus ticketing platform that enables multi-carrier routing, and also a tool for bus companies to manage their schedules, routes and sales data. We used AngularJS on the front-end for a seamless experience, and a graphic database on the back-end for powerful management of bus routes. I am co-founder of this start-up company, and coded the entire front-end for the initial release of our website.

WEB DEVELOPER, BADGER INNOVATIONS, MADISON, WI – 2013

Collaborated with designers and developers to build high-quality websites.

Projects

CAMPUS.COOL - 2014

Application for student organizations management. Collaborated with a team of three developers. Designed and coded the front-end using Knockout.js.

SPRINGTIDEPRESS.COM - 2014

Official website for a printing press. Made it completely ajax-driven with smooth animations using jQuery and advanced CSS.

RAKUGAKI.ME AND OTAKISM.ORG - 2014

My portfolio (http://rakugaki.me) and blog (http://otakism.org) exhibiting my design and development works.

Language

Java, C, PHP, Javascript, HTML/CSS, AngularJS, Knockout.js, jQuery
